

Basadur Simplicity Train-the-Trainer Level 4

4.5-day workshop is for those who've completed Levels I – III and now want to train others in the unique Basadur system.

Certification:

Certified Basadur Simplicity Trainer

This 4.5-day workshop is for those who've completed Levels I – III and now want to train others in the unique Basadur system. It's highly experiential, comprising hands-on teaching, coaching and instructional scenarios on the complete range of Basadur Profile and Simplicity Thinking skills. On completion, you'll become a certified Simplicity Thinking Trainer.

Basadur
Certified
Trainer

Who is it for?

- Individuals looking to acquire the skills to run successful training workshops.
- Leaders wanting to implement Simplicity Thinking across their whole organization.
- Managers and supervisors looking to encourage their workforce to question old habits and ways of thinking.
- Team leaders wanting to ensure the future of innovation in their organisation by embedding a tried-and tested-system.
- Individuals and team leaders wanting to pass on their knowledge in identifying and solving problems and creating solutions.
- Individuals looking for certification as a Simplicity Trainer.

Needs & objectives

- To learn the leadership skills that will let you engage others in innovating successfully.
- To learn how to guide others through complex challenges by means of a systematic approach.
- To enable you to increase your workforce's understanding of innovation as a complete process.
- To enable opportunities for improvement in your organization's products, processes and teamwork.
- To provide you with hands-on experience of passing on Simplicity Thinking skills and knowledge.

Benefits/outcomes

- Qualifies you to teach Simplicity Thinking to others.
- Lets you show others how to permanently change the way they think and behave on a daily basis.
- Helps you create custom courses to fit your specific market needs.
- Shows you how to help individuals build their confidence and skills in thinking clearly and innovatively.
- Lets you train your personnel to work with each other to fully understand problems and how to solve them.
- Provides you with a set of online resources to enable you to successfully deliver Simplicity Thinking workshops.

To take part you must have completed the Level I – III workshops.
